DID YOU EVER STOP TO THINK?

By E. R. Waite, Secretary Shawnee, Okla., Board of Com.

THAT live business concerns build a profitable business by ADVERTISING.

THAT up-to-date business concerns know that every family is a customer for a wide variety of merchandise, and that they must carry an up-to-date stock in order to hold what trade they have--and then advertise to secure new trade.

THAT advertising is the silent salesman that brings the business. Ads speak with silent eloquence.

THAT to business concerns who start a persistent, truthful advertising campaign, the business of the past will be small compared with the amount of business done in the future.

THAT demand for merchandise comes only from one source—the people. Advertising creates demand.

THAT the ever-increasing demand for advertised goods is proof that those who buy advertised goods demand them time and time again.

ADVERTISING DOES THE MOST TO BRING A STEADY FLOW OF BUSINESS THAT CONTINUES YEAR AFTER YEAR.

County Pioneer Goes to Rest

One of the county's pioneer residents and best known women passed away last Tuesday in the person of Mrs. Honora King, who died at the home of her daughter, Mrs. Dollie Granger on Phelps street at the age of 9 years. Mrs. King was a native of Ireland, but had spent all but twenty years of her life among the scenes of San Mateo county.

Mrs. King, with her husband, the late Frank King, for many years lived in Redwood City, where the latter conducted the Grand Hotel on the site of the First National Bank. Later, about 1867, the Kings moved to the summit of the mountain which now bears their name, and there conducted the King's mountain house, which after the establishment of Stanford University, became a favorite week end resort with the students of the newly formed university. Here Mrs. King won a well earned fame for the quality of her meals, and the cooking at the King's mountain house was known throughout the county.

After the death of her husband which occured about 22 years since, Mrs. King remained at her mountain home until a few years ago, when she came to Redwood City to live with her daughter, Mrs. Dollie Granger.

Mrs. King is survived by two sons: Walter King of this city, and Frank King of Reno, Nevada; and by two daughters, Mrs. Dollie Granger of this city and Mrs. Josephine Berry of San Francisco. Another daughter, Miss Frances King passed away last year.

The funeral services of the late pioneer took place Thursday in the Congregational church with Rev. B. St. John officiating. The pall bearers for the occasion were: Floyd Granger, Frank McEvoy, T. Meeks, Charles Durham, Ed. Bebe and J. J. Rogers. A large number of the friends of the deceased attended to pay their last homage to one who was loved and respected by all who knew her.

REDWOOD LODGE WINS FIRST PLACE FOR DRILL

At a convention of the Fraternal Aid Union held in Palo Alto last Monday, at which all lodges of the order between Sacramento and Santa Cruz participated, the Redwood City team won first prize for the drill. The team is made up of the following local people: Alice Sagasser, Ann Sagasser, Annie Bullivant, Pearl Beere, Elma Hinman, Annie Jennings, Daisy Kreiss, Belle Mirandette, Vera Meusberger, Georgia Porter, Margaret Rice, and Martha Winter. The officers with the team were: president, Selma Locker; vice president, Mary Winter; past president, Harry Potts; chaplain, Matilda McNulty, musician, Dollie Jamieson; guide, Bertha Potts; guard, George McNulty; and captain, J. C. Jones.

Mrs. Mary Winter of Redwood City is district president, and was the presiding officer of the convention, and Supreme Representative Charles T. Cook of San Francisco, who was also present, was formerly a resident of Redwood City, and is a son of Thomas Cook, formerly editor of the Times-Gazette.

I. K. O. Z. TO DANCE

The I. K. O. Z., a club composed of recent graduates from the Sequoia Union High School, will hold their fourth anniversary dance next Saturday evening in the Foresters' hall. Sharkey's five-piece orchestra has been secured for the occasion, and a good program of dances has been planned. Bids were sent out for the affair last week.

Great Britain's labor government is mostly laboring to keep in office.

NEW PUMP INCREASES CITY WATER SUPPLY

A new pump was installed on one of the seven city wells last Wednesday which increased the output of the well from 165 gallons per minute, which was obtained with the air lift, to 265 per minute. The new pump is a Campbell and Budlong deep well turbine. It is one of the fastest pumps in use at the water works, and has proved very satisfactory in the time in which it has been used.

Although this has been an unusually dry year, and the demand for water has increased in unprecedented proportions, the water supply of Redwood City, it is said will be far more than sufficient. The installation of the new pump was not necessitated by the lowering of the water in the wells, but by an increased demand for water which made the older pump too slow to supply the demand.

SLANDER SUIT WILL NOT COME TO TRIAL

Characterizing the action of D. C. Imboden, manager of the Three Cities Chamber of Commerce, as boys' play and too trivial for the action of a court of justice, Judge Buck this week sustained a demurrer filed by attorneys representing District Attorney Swart in a suit for $10,000 brought against Swart by Imboden. The suit by Imboden was the result of a story told by the district attorney at a meeting of a club in San Mateo, and now known throughout the state as the "coon dog story."

According to the story, which has since become famous, a farmer sold a dog to a neighbor, telling him that it was a good coon dog. Later the neighbor brought the dog back to the seller, and said that the dog was no good for a coon dog. "Well," replied the farmer, "I knew he was no good for anything else, so I thought he must be a good coon dog." Imboden, feeling that the district attorney had reference to him, filed suit for slander.

In commenting upon the case in his opinion, Judge Buck said in part "If a charge of this kind is sufficient upon which to base an action for damages, then most of us would either be plaintiff or defendant in some suit brought to determine our capacity for work—mental or physical. This court fails to see how an action for damages can be maintained by simply saying that a man's capacity for certain work is somewhat limited. A certain good and well known judge is taken to task frequently in this manner but he takes it good naturedly.

"The charge in the complaint seems to be nothing more than a joke. It certainly seems too trivial to be brought in a court of justice.

"Assuming that the defendant did say of and concerning the plaintiff, that he, the plaintiff was good for nothing else except to act as secretary of a chamber of commerce and enforced that by the story of the coon dog—no crime is charged nothing more than that the ability of the plaintiff is referred to.'

CITIZENS' MILITARY TRAINING CAMP

With the rapid approach of the date of encampment of the Citizens Military Training Camp in California, all young men desirous of attending this summer are urged to place their applications without delay.

Citizens Military Training Camps are conducted by the War department under the National Defense Act.

The objects of these camps are to bring together young men of high type from all sections of the state and thereby develop closer national and social unity; to teach the priveleges, duties and responsibilities of American citizenship; to stimulate patriotism; to interest young men in the importance of military training; to teach self discipline and obedience; and to develop the physical standard of American youth through participation in military exercises, athletic games and sports, conducted under expert directors.

The benefits derived from attendance at these camps are secured without expense to the students, as the War department provides transportation, clothing, comforts and amusements.

Full and complete details may be secured from John M. Robb, Adjutant of the American Legion Post 105, or from Captain John N. Blood, Drew Building, Redwood City.

FIRE IN HAY STACK BRINGS OUT WAGON

A fire, supposedly started by small boys, in a hay stack at the corner of Brewster street and the Highway, brought the fire engine out to a call from box 21, Thursday afternoon. The department found the fire spreading to other stacks of hay and endangering the fences of neighboring houses. The flames were soon extinguished by the chemical, with the aid of a few wet sacks.

Miss Clarissa Dodge and her aunt, Mrs. Emma Winter, returned last Saturday after spending several weeks with Miss Dodge's sister, Mrs. Jacob Spoolman at Birnamwood, Wisconsin. They both report having had a delightful trip. Miss Dodge has resumed her position as organist at the Sequoia Theatre.

Henry Marcus, who has been resting up at St. Helena, has returned, and feels much better.

FOOT AND MOUTH DISEASE NOW ON THE WANE IN CALIFORNIA

No New Cases Reported Outside of the Closely Quarantined Areas During Past Week, Says Officials

The epizootic of foot and mouth disease, which has swept certain sections of the state and which for a time threatened the whole state, has been finally brought under control, according to reports received this week from the Department of Agriculture. While the disease is still existant among the herds of some parts of the state, there have been no new cases reported this week outside of the closely quarantined sections.

Dr. U. G. Houck, in full command of all federal and state forces eradicating the foot and mouth disease, has announced that assignments have been completed by Dr. Rudolph Snyder, in charge of all field workers, whereby veterinarians are stationed to pass livestock moving from home ranches to the National Forest ranges.

The great cattle and sheep movement to summer ranges in the government reserves started May 11 and it is estimated that the grazing of herds in northern California forest reserves will mean the saving of great herds and many millions of dollars to California.

At the same time Dr. Snyder made his selection of inspectors, it was announced by Dr. Houck that the counties are to provide all transportation for the government inspectors and they have been notified to this effect.

Dr. Snyder, after a conference with Dr. J. P. Iverson, state veterinarian, California department of agriculture, and other associates, stated that no livestock will be allowed to enter the national forests from any county or part of a county under quarantine for foot and mouth disease.

No livestock will be permitted to enter the forest ranges unless accompanied by a health certificate signed by a veterinary inspector, bureau of animal industry. All inspectors will be at their stations in time to pass on the cattle and sheep which start moving May 1.

The quarantine restrictions imposed by other states upon California products have been considerably changed, and only the products of infested areas are now banned by most states. The first quarantine laws were a hysterical measure, which deeper thought proved unnecessary and harmful, and they have been replaced with saner and more scientific legislation.

EARLY MORNING BLAZE TAKES MISSION CHURCH

A small mission church belonging to the Northern California Conference of the Congregational church and situated a short distance outside of the city limits of Redwood City, near Five Points, was completely destroyed by fire early Tuesday morning. The church was in flames before the fire was noticed, and when the department arrived was burning beyond any chance of saving. A dwelling near the church had caught fire from the heat, and was saved by the firemen, who were hampered in their work by the fact that the burning building was outside of the city limits and no hydrant was available nearer than 2000 feet.

The loss of the building is said to have amounted to about $2000, and is said to have been almost covered by insurance.

RUM RUNNERS ARE ARRESTED AT BEACH

Four arrests wtre made Saturday morning at Pescadero by prohibition officers, when a group of rum runners endeavored to unload a cargo of liquor from the ship, Prince Albert, which lay a short distance off shore.

The prohibitionists were informed of the whereabouts of the rum ship and were on the lookout when they saw two small boats coming to the shore from the ship. The boats landed and the three men in them began to unload the liquor from the boats into three large touring cars which were waiting. It was then that Harry Toft, in charge of the police squad, gave the command and the officers advanced on the smugglers with drawn weapons. Several shots were fired by the rum runners, but they finially surrendered.

The arrested men are said to be J. F. Steele, a member of one of the most prominent families of the coastside, Percy Allen of 224 Leavenwort street, San Francisco, C. Munson, 130 Eddy street, and Sidney Held, 130 Eddy street, San Francisco.

Another attempt was made to unload the cargo of the ship Monday morning, which was also frustrated by the vigilance of the federal officers. The attempt was said to have been made by five men, all of whom escaped, but were seen and recognized as the same men that had been arrested Saturday. The fifth man is thought to be a Paul Payne who is reported to be the head of an international rum running ring, and who is now being sought by federal officers.

At this time a truck equipped to resemble one of the oil trucks common on the county highways was found. A secret door into the truck disclosed a large storage capacity for the liquor which was to have been loaded into it. The truck was confiscated as were also the touring cars found on the former raid, and the liquor. The boats which were found landing the booze from the ship were burned on the shore.

PROFESSOR'S EXPERIMENT BRINGS CEMENT FACTORY TO REDWOOD

Sack of Shells Ground in a Coffeemill Form Basis for Erection of the $2,000,000 Cement Plant

The fact that the shell deposits of the lower bay can be converted into cement has led one of the most gigantic manufacturing plants in California to locate here at Redwood City, yet the discovery of this fact was the result of the observation of one man, and that man not connected with the cement industry. Several years ago George A. Merrill of Redwood City, while watching a dredger at work excavating shells, began to speculate if it would not be possible to make these shells take the place of the lime which was necessary to the manufacture of cement and which was expensive to mine and calcine.

Merrill asked Bert Werder to bring a few sacks of shells into town, and when they were secured, he and Werder set up an old coffee mill and proceeded to grind the shells as fine as the coffee mill would grind them. They were afterwards pounded to a fine powder in a mortar, and then sent to Prof. Tibbitts, chemist of the Lick-Wilmerding school. Tibbitts experimented with the shells and finally decided that they were good for making cement.

The news was received with joy by the cement manufacturers who were desirous of securing cheap lime, and the discovery has resulted in the commencement of the two million dollar plant on the marsh.

California has always been a pioneer in the use and manufacturer of cement. Old records of the United States Geological Survey show that as far back as 1860 natural cements were being produced in the state of California, and that portland cement was made at a plant at Jamul, San Diego county, in 1891. The Jamul plant was operated only for a short time, while the natural cement business was supplanted by the portland industry some years later when the development of portland cement was carried on by various companies.

A government report for the year 1902, carrying a review of the cement industry, states that in 1860 a bed of hydraulic limestone was opened near Vallejo in Solano county. A small cement mill was erected near Benecia for the production of natural cement. This mill was operated for about 25 years. In 1884 the business was started in Alameda county, near Niles. The old natural cement differed from portland cement in that they were largely a gift of nature. The rock was taken from the quarries and burned in dome-like kilns, afterwards being ground. There was no way of controlling the proportions of the ingredients as they were taken merely as found in the deposits. In the portland cement manufacture, definite proportions of lime, silica and alumina are exactly measured, finely ground and intimately mixed and then burned to hard clinker at extreme temperatures. This clinker is then ground to the fineness of flour to produce portland cement.

In spite of the fact that portland cement was invented in 1824 by an English bricklayer, it was not until 1872 that the industry started in this country. In that year a mill was opened at Coplay, Pennsylvania. The first plant west of the Mississippi river was established in 1880 near San Antonio, Texas. The plant at Jamul, California, established in 1891, operated for only a few months, but in 1894 another portland cement plant opened in the state, and the industry has gradually expanded until latest government reports show nine producing plants.

In per capita use of portland cement California has led the nation for several years. In 1921 the figure for the state was 1.69 barrels. In 1922 this increased to 2.23 barrels which is the highest figure on record. The results of this use are shown by Californias famous system of concrete highways and the wide spread popularity of concrete and stucco architecture.

Stanford Visitors Visit High School

The new buildings and grounds of the Sequoia Union High School were visited and inspected last Wednesday by about 70 members of the Stanford Educational Club. The visitors were shown about the establishment by Principal A. C. Argo and Vice-Principal John Gill, and were later served with a dinner in the school cafeteria.

In the evening a program of speakers, including Principal Argo and County Superintendent of Schools Roy W. Cloud, and several speakers from Stanford was enjoyed. Prof. Swetman of Stanford acted as chairman of the meeting.

All the visitors spoke with admiration of the new home of the high school, and of the beauty of the grounds which rival any park. The impressions created by a school such as the Sequoia Union High School district now has, are lasting on the visitor and impress favorably all who see it.

MAYOR BEEGER

Mr. Henry A. Beeger was made Mayor of Redwood City at the council meeting last week. We greet Mayor Beeger and wish for him a most successful administration of local affairs. It is a fact worth mentioning that Mr. Beeger is perhaps the first mayor of this community who is a native son of the town. There have been those who have served who have lived in Redwood City since childhood, but we believe that we now have our first mayor who is a local product.

As we have mentioned before, Mayor Beeger was proceeded in the town trusteeship by both his father and his brother, so his interest in civic affairs carries on the interest of a family that has done much in the upbuilding of Redwood City. Mr. Beeger has manifested his interest in his home town ever since he was graduated from Stanford. He is the type of an educated, loyal citizenship that a town needs. He is willing at all times to serve his country or his community even when it means personal secrifice. Again we wish you success, Mr. Beeger. May your administration be one of the most successful Redwood City has ever enjoyed.

CITIZENS OF THE U. S. A.

Last Tuesday a number of aliens became full fledged citizens of the United States. The federal commissioner who conducted the examination asked questions on government that would have stumped the applicant of the bygone days but now that the prospective citizen has the opportunity of learning his lessons at a night school he can tell about congress, amendments, etc., without a bit of hesitation.

The attitude of the court also had quite a bit to do with the way in which the applicant answered his questions. While the examiner was all business, Judge Buck greeted each one with a friendly smile and explained many of the questions which would otherwise have been too technical.

One noticeable thing about the proceeding was the promptness with which bootleggers and draft evaders were denied the privileges of citizenship. One of the first to appear was asked if he had ever been arrested. He said that he had and the fact was developed that he had been fined for bootlegging. The examiner requested that his application be denied and the court so ruled. Next came the man who had claimed exemption from the draft by virtue of the fact that he was an alien. His own signature on a photographic copy of his draft papers were in evidence and he was told that he was not the material out of which American citizens should be made. A number of cases like the above were called and each time the applicant was told to step down. He had broken the laws of the land, where he was making his home, or he had refused to bear arms for the country that gave him his living and so the great protecting arm of the nation was not willing to take him in as one of its own.

We were glad to see this action. A higher regard for this privilege will come when the alien learns that citizenship is hard to get. In the olden days to be a Roman was greater than to be a king. In 1924 the greatest honor that any man can have is to be a citizen of the United States of America.

CALIFORNIA AND THE EAST

While we are enjoying the most wonderful weather we have ever had out here in Sunny California, the eastern section of our country is experiencing just the opposite condition. In the north eastern sections, the papers tell us, are blizzards and awful winter weather. In the south, we learn with horror, tornadoes are raging and scores of people have been killed by the storms which are sweeping across the country with terrific force. The property loss in the south it is reported will run into the millions.

It is hard for us to realize that such conditions exist, but such is the fact. Once upon a time we had an earthquake here that did untold damage, but earthquakes are few and far between. The east and the south, however, are subject to storms, tornadoes and blizzards every year. As for us we are willing to take our chances in California. We are glad that we are here, and we are doubly thankful that we can live in the vicinity of Redwood City and Menlo Park which is the best part of the best state in the world.

YOUTH

Last summer while in the south we met a very wonderful man. His name is Cornelius Cole. He was for a number of years United States Senator from California, He is 102 years old. He has lived an active useful life. Monday's paper stated that he was beginning the erection of a $150,000 building on his property in Los Angeles.

He is going to enjoy life while he is here and he is willing to take a chance. Not long ago we heard a man of middle age say that he would like to do a certain thing, but he wouldn't risk it at his age. His remark brought to mind a little piece by Edgar A. Guest. It goes like this:

"If I had youth, no thought of failure lurking
Beyond to-morrow's dawn should fright my soul.
Let Failure strike—it still should find me working
With faith that I should someday reach my goal.
Rich prizes wait for those who do not waver;
The world needs men to battle for the truth.
It calls each hour for stronger hearts and braver.
This is the age for those who still have youth."

Any man is just as old as he thinks he is.

Runnymede Items of Interest

The play, 'All A Mistake", played by the Runnymede Dramatic Club in the school auditorium Saturday evening brought out a full house. It was a play full of comic situations, well acted by our local people under the direction of A. T. Steele. Ore Hinding showed previous stage experience and carried off first honors. Dr. E. R. Tait, the old sea captain, made a hit with his part, and was a surprise in every act. The most difficult part was played by Mrs. Charles T. Self and her acting was a credit to herself and her director. George Hand always fits in the characters he takes and Mrs. Geo. Hand and W. B. Parkin kept the audience in almost constant laughter. Mrs. W. B. Parkin is always good in any character and she was just as much enjoyed as ever, Saturday night. Miss Mary Duke fitted her part as splendidly as she did in the last play given and these local players furnished an evening program any community might be proud of. The play was repeated in Mayfield Monday night and will also be given in Palo Alto. It was followed by dancing and a social time.

A Coolidge meeting was held Tuesday evening and a good talk given by Judge Curtis of San Francisco, but the attendance was small. A Johnson meeting was held Friday in the school auditorium.

The Runnymede Dancing Club will have their regular dancing party this evening.

This week seems to be moving time in Runnymede. Arthur Joyce and wife moved out their furniture from their walnut street home, going to Santa Cruz for a visit before going east. Mr. and Mrs. Geo. Phelps of Redwood City have leased their place and moved in the first of the week. Mr. and Mrs. Meikle moved to Mountain View Tuesday from the McBride place, and Mr. and Mrs. Hyde, recent arrivals, are moving in. Mr. and Mrs. C. P. Keesling are moving from Cooley avenue to the cottage on the Workman place, and Mr. and Mrs. Harry Merwin who have bought the house they are vacating, together with a half acre of ground, are taking possession.

Mrs. Eva Wolfert has rented her property on Cooley avenue and Mr. and Mrs. Holly, eastern people, are to take possession this week. Mrs. Wolfert plans a trip east.

Mrs. Fred Klein of Cooley avenue has returned from a few days' stay in San Francisco with relatives.

Mrs. J. L. Moody, who has spent the greater part of the winter with her sister, Mrs. J. B. Maynard, left for her home in Wisconsin Sunday. Mr. and Mrs. Maynard accompanied her to the city and they all attended the Galli-Curci concert Sunday.

Miss Grace Ward and Mrs. and Mrs. W. H. Ward of Morgan Hill and Attorney and Mrs. Ward of Washington were visitors at the C. L. Harper hmoe Friday.

Ralph Follett was a visitor at home Saturday. He came down the University of California for the Stanford track meet.

Mrs. Reed Morrill and two children, James and Richard, who are visiting Mrs. Morrill's parents in San Jose, were callers in the community last week. The Morrills have been living in St. Louis, Mo., but on their return east, expect to locate in Chicago.

Mr. and Mrs. F. C. Nickerson attended the funeral of an old Modesto friend in the Odd Fellows' Home Monday afternoon.

Mr. and Mrs. Carol Da Mant were dinner guests at the A. Dezzo home Sunday.

Mrs. Prettyman of Fresno, who was here for the funeral of R. R. Brewbaker, returned home Saturday. Mrs Brewbaker accompanied her for a visit.

Mr. and Mrs. Clary of Woodland were visitors at the H. J. Schneidewind home Sunday.

Mr. and Mrs. F. B. Bloom of San Francisco, the latter the mother of Mrs. Geo. Richards and Mrs. O. H. Ransey; a sister, with her husband of SSanta Rosa, were visitors at the Richard's home on Clark avenue Saturday.

Miss Maude Poulsen of the Santa Clara hospital was a week-end visitor with her Runnymede relatives this week.

Miss Mildred Merwin of San Jose and Mrs. Robt. Letts and Mrs. Peterson of Redwood City were visitors at the Merwin home on Euclid avenue Sunday.

Mr. and Mrs. C. E. Cuenin and daughter Frances of San Jose were week-end visitors with Mr. and Mrs. W. H. Barnett this week.

Mrs. Ernest Brast is down from San Francisco for a few days at her Runnymede home, and the Van Hericks were down Sunday for the day at their place on East Cherry street.

LETTERS OF ADMINISTRATION SOUGHT IN UNCLE'S ESTATE

A petition was filed in the office of the county clerk this week by L. A. DeRosa of this city for letters of administration upon the estate of his uncle Stephen J O'Hanley who is said to have died in January at Goldfield, Nevada. The petition states that no will has been found, and that heirs include a brother of the deceased, John O'Hanley of Nova Scotia; three sisters, Sarah McDonald and Sarah and Katherine O'Hanley, all of Nova Scotia; and three nephews, Steven De Rosa of Oakland, Ronald De Rosa of Sacramento and L. A. DeRosa, the petitioner of Redwood City The estate is said to consist of property in Contra Costa county, valued at about $1,900.

WILL OF MENLO FINANCIER FILED IN S. F. FOR PROBATE

The will of the late Christian Smith, well-known Menlo resident and former president of the drug firm of Coffin & Reddington, has been filed for probate in the Superior court of San Francisco county. According to the provisions of the will, the greater portion of the estate, said to be valued at about $250,000 is left to the widow of the deceased. Provisions are also made however, for several relatives, including a brother, Lincoln Smith.

NEW DISABILITY POLICY OF VETERAN'S BUREAU

Where a disability has once been connected and payment of compensation made under an award, such disability shall not be rated as not of service origin subsequent to the expiration of the time allowed for appeal (four months) except on approval of the director

This new policy was announced by General Frank T. Hines, director of the U. S. Veterans' Bureau, and went into effect April 11, 1924.

In cases where from a subsequent review of the file, either on the same or on additional evidence, it appears that the findings as to the service connections was erroneous, the district board of appeals or medical rating section in central office, shall forward the case for the attention of the director with a complete resume, stating the reasons why it is believed the former decision was erroneous and the disability should be held not incurred or aggravated by service. The director personally will pass upon the merits of these cases.

The policy further carries with it a provision whereby the payment of compensation shall not be discontinued or suspended or the benefits of hospitalization or treatment for the disability in question be denied until the director has approved the rating.

Director Hines stated that he believed the above policy would provide additional security and protection to the beneficiaries of the bureau and would meet the approval of the public.

The order also makes it impossible for a district board of appeals to reverse or amend a decision of the central board of appeals on the same evidence, or for the district board of appeals to amend a decision on the board of appeals of another district on the same evidence. If in the opinion of the district board of appeals, additional evidence warrants a reversal of, or an amendment to the decision rendered by the Central Board of Appeals, the complete records will be forwarded to the Central Board of Appeals for decision with a certificate of difference of opinion showing the facts upon which such difference of opinion is predicted. A similar action will be taken where a district board of appeals believes a decision rendered by a district board of appeals of another district should be reversed or amended.

If in the opinion of the district board of appeals the evidences warrant a reversal of or amendment to the decision rendered by the Board of Appeals of any district, or the central board of appeals, for a period subsequent to the last decision, a rating shall be made by the district board of appeals, and this rating shall be final unless the case is appealed to the central board of appeals by the claimant, his legal representative, his agent duly authorized, or by the bureau on its own motion, within four months from the decision and notice thereof to the claimant or his legal representative. The claimant shall be notified of his right to appeal to the central board of appeals.

This information is released through Redwood City Post 105 of the American Legion by James Burhead, sub-district manager of the U. S. Veterans' Bureau.

SEEK INCORPORATION FOR CEMETERY CITY

A petition for the incorporation of what will probably be one of the oldest cities in the state, was filed this week in the office of County Clerk Elizabeth M. Kneese by Attorneys Ross & Ross of this city. The petition is signed by 64 voters of the district occupied by the cemeteries of the north end of the county and seeks the incorporation of the cemeteries as a city of the sixth class. The territory included in the district is Cypress Lawn, Holy Cross, Eternal Home, Hills of Eternity, Greenlawn, Home of Peace, Italian Cemetery, Mount Olivet, Woodlawn, Salem and the Odd Fellows' cemeteries.

According to the petition, there are about 600 living inhabitants in this territory of whom 78 are qualified voters. The incorporation of the cemeteries as a city, is sought as a safeguard against any future proceedings for the removal of the cemeteries, such as have recently been put through against some cemeteries in San Francisco.

Cleaning Without Odor by the F. Thomas Process

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening "gasoline" smell in your clothes

HORACE GREELEY'S BARN A RESIDENCE

In 1831 an akward, unkempt youth of eighteen left a small country printing office up-state and started for New York to find work as a printer.

When he reached the metropolis he had $10 in his pocket. But he was not worried greatly—he went out and got a job, found himself the cheapest, most barren little room he could, and set to work to make a place for himself in the great city.

In twenty years he had made that place for himself. Everybody knew Horace Greeley, the great editor of the New York Tribune. His caustic editorial controversies with his great editorial contemporaries, his bitter political debates made him one of the most powerful figures of his day.

It is sometimes jokingly said that certain communities in New York still abide by the opinions of Horace Greeley, so great was his influence.

It was some seventy years ago, when Greeley was at the height of his fame as editor of the Tribune, that he built a huge three-story concrete barn on his estate at Chapaqua, N. Y. At that time the portland cement used in the manufacture of concrete had to be imported from England, as the United States had not yet begun the manufacture of the product.

Greeley's barn was made of a concrete composed of cement with stones and oyster shells embedded in it. The walls were two feet thick and the exterior was finished with stucco.

"After I am gone, I hope that this old barn will still be serving a useful purpose," the great editor told his daughter.

Several years after Greeley's death a fire destroyed all the frame buildings on the estate and the daughter and her family turned to the old barn for shelter.

Later, an architect was consulted and under his direction the barn was trnasformed into a residence. Visitors are now ushered into the house through a hallway situated where the cow stall once stood.

And the great editor's concrete barn, one of the first concrete structures in the country, is still "serving a useful purpose."

DANIEL RED ARRESTED WHILE OUT ON BAIL

Daniel Red, proprietor of a soft drink place in Menlo Park, who came into considerable prominence recently by being arrested for selling intoxicating liquor to high school boys, was again arrested this week. Red was on bail on the first offense and was to have come to trial on May 16, but was arrested Tuesday by Deputy Meeks on a warrant sworn out in the court of Justice Griffin, charging him with illegal sale of liquor.

The first arrest of Red called forth a general protest from school authorities and the parents of children in Menlo Park and Ravenswood districts against the operation of bootleggers who were selling liquor to the high school students, and the co-operation of the county authorities was promised to improve the conditions. District Attorney Swart is prosecuting the case against Red, and it is thought that the district attorney will ask for the heaviest sentence allowed by the law.

Red was given a preliminary hearing Thursday and was held over to the Superior court.

NEWS OF MENLO PARK

Menlo Park Commuters are urged to buy their tickets at the local railroad office for the more business done here, the better will the service be. The importance of the office depends largely upon the receipts. The more business, the better service from the company. Many commuters buy their commutation tickets in San Francisco instead of Menlo Park.

Mr. and Mrs. C. F. Slinger and their young son, Chester, have departed for their former home in Chicago for a brief visit. Mr. Slinger is the proprietor of the Fremont Taxi and during his absence the business will be in charge of Allen Henshel, his step-son. The Slingers went by Pacific Limited, and will return by way of New Orleans.

The Woman's Exchange, Mrs. Kurtz proprietor, will have on sale today a large assortment of homemade pies, cakes, cookies and other delicious articles. Come and try them. Try her salads.

The Burke ranch in the foothills back of Menlo Park was sold this week to an eastern capitalis, who is to develop the property. The ranch consists of 256 acres. The sum of $75,000 was paid for the realty. Mr. Carey, the Palo Alto realtor, made the sale. The place was once the Burke stock farm, where thoroughbred horses were bred and many of them won fame on the eastern turf.

Last Monday in Oakland a baby girl was born to Mr. and Mrs. Adrian Carleton. Mr. Carleton is the manual training teacher at Antioch, where the family live. Grandpa Carleton is very proud of the youngster, whose acquaintance he will make very soon. Mother and baby are doing nicely.

Major General and Mrs. C. A. Devol are soon to leave for a tour of Europe, and while on the continent will visit all the capitols of the Old World and kindred points. The Devol home on Santa Cruz avenue is one of the show places of the peninsula. Mrs. Devol is an earnest church worker, always taking an active interest in local church affairs.

The last will and testament of the late C. W. Smith was filed for probate in the Superior court of San Francisco last week. The estate is valued at $250,000 and is left in trust to the widow of the deceased, and her death the property is to be divided among the nephews of the testator. The income of the estate is $25,000 a year. Mr. Fowler, one of the nephews, is the well-known San Francisco policeman who a number of years ago married the beautiful Henrietta Lawler of Menlo Park. The country home of the deceased, known as the "Peppers" on Santa Cruz avenue, is to be sold.

A food sale of home-made pies, cakes and salads will be held today beginning at 11 o'clock and continuing all the afternoon in the store adjoining the real estate office of W. J. Murray on the highway. The sale will be held under the auspices of the Alumni Society of St. Joseph's Parochial school, and the receipts will swell the funds of the society that will be used eventually in providing athletic equipment for the school.

Lord Hesketh, the largest land owner in England and well-known here, passed away at his estate near London during the week. Many years ago he married the pretty Miss Sharon, daughter of the late Senator Sharon. Lord and Lady Hesketh, often visited this country and spent some time here as the guests of the late Fred Sharon. The wedding of the Hesketh's at the Belmont home of the senator was a big society event that will be recalled by all old timers on the peninsula. Besides all the leaders of society in this section several of the crown heads of Europe were present to witness the event. Hesketh owned 15,000 acres of land in England. Lady Hesketh will most likely come to the country of her birth to spend her remaining years.

The traffic officers in charge of Captain James Logan met here Thursday evening for the purpose of arresting all those with glaring head lights on their automobiles contrary to the traffic regulations. Fifty autoists were given the "white slip" directing them to appear before Judge Griffin.

Over 150 students of Notre Dame Academy at Belmont enjoyed an excursion on the bay Thursday. A wealthy gentleman loaned his handsome yacht to the school for the day. After cruising about the bay near San Francisco, the vessel anchored in Paradise Cove, in Marin county, where all enjoyed a delightful lunch brought by the girls. All the young ladies from Menlo Park attending the Belmont institution attended the outing and all report having a splendid time on the bosom of the deep.

It was with a feeling of deep regret that the people of Menlo Park accepted the news on Tuesday that Rev. Father F. O'Kelly, the devoted pastor of the Church of the Nativity, was to leave next week to take charge of the Elmhurst parish, near Oakland. Father O'Kelly during his pastorate here has endeared himself to all by his earnest work and devotion to his calling. He will preach his farewell sermon tomorrow. Irrespective of creed, Father O'Kelly was liked by all and his departure is the cause of regret. In his new charge he has received a substantial promotion on account of the prominence of the parish and its location, being practically a part of the growing city of Oakland. Rev. Father Kennedy of Modesto has been appointed to succeed Father O'Kelly. He is a young man of rare ability and devotion.

Last Wednesday "Babs" Ainsworth Leslie, the winsome young daughter of Mr. and Mrs. Harry B. Ainsworth, was quietly married at her parents' home here. The news leaked out only yesterday. This is the second venture of the pretty girl who ran away and was married to a lochinvar from the skies, four years ago, and when she was sweet sixteen. Mr. and Mrs. Corby will make their home in Los Angeles.

Under the auspices of the Parent-Teacher Association, all the children of the grammar school attended the May festivities at Burlingame yesterday. Those who contributed toward the expense of conveying the little ones to the northern city were, James G. Mason, $10, Mrs. Charles H. Merrill $5, and Mrs. James T. O'Keefe $5. The children returned last evening tired out but fully conscious of having a delightful time. The association is planning to secure a moving picture machine, library and telephone for the school.

On behalf of the Companions of the Forest Card Club, Mrs. Margaret Gale gave the P.-T. A. $100 to be used for a moving picture machine for the school. On her motion it was voted that the organization should give a large card party soon to raise further funds for the purpose. Mrs. Gale was appointed chairman of a committee on arrangements.

A Coolidge rally will be held this evening in Duff & Doyle hall under the auspices of the Woman's Coolidge club of Menlo Park, which has a membership of over 200. Able speakers will address the meeting. All are cordially invited to come and hear the issues eloquently discussed.

ALIENS ADMITTED TO CITIZENSHIP IN U. S.

Fiftien aliens were admitted to United States Citizenship last Tuesday in the Superior court here. The duties which they were assuming in taking this important step were explained to them by County Superintendent of Schools, Roy W. Cloud, and a patriotic program was presented by the Gen. Geo. S. Evans Relief Corps. A number of applicants for citizenship had that privilege denied them because of having been convicted of bootlegging, or of having used their foreign citizenship to evade the draft during the war.

The names, residences and places of nativity of those admitted were as follows:

Angelo Micheletti, Colma, Italy.
Enrico Mirata, South San Francisco, Italy.
Flora Kiss (Helen Kish(, South San Francisco, Austria.
John Murray, Redwood City, Ireland.
Lorenzo Soletti, San Mateo, Italy.
Daniel Cocconi, San Mateo, Italy.
